American Airlines Adds Third Daily Flight Service from MGM to Dallas/Fort Worth

Montgomery, Al – The Montgomery Regional Airport (MGM) welcomes the announcement by American Airlines to add an additional flight to its daily service to Dallas/Fort Worth International Airport (DFW) beginning Summer 2024. The three-daily departure service increase was made by American Airlines in part of the airline's record-setting schedule, where the company will offer more seats departing from Dallas/Fort Worth International Airport (DFW) than ever before in the airline's history, providing more than 850 daily departures.

“The additional daily flight to DFW improves convenience for leisure and business travelers, providing efficient connections within American Airlines' network” said Wade A. Davis, MGM Executive Director. “This demonstrates our commitment to enhancing the travel experience and solidifies our position as a regional hub for seamless travel connections.”

Effective Summer 2024, MGM travelers can now enjoy increased accessibility and flexibility with the expanded schedule of daily flights. This service aims to cater to the growing demand for seamless air travel options, providing passengers with more choices for their travel itineraries. The increased frequency of flights to a central hub like DFW significantly broadens travel options and facilitates smoother connections to various domestic and international destinations.

The current MGM to DFW flight is operated by the Embraer E175, which includes 80 seats in total, with 12 seats in First Class, 20 in Main Cabin Extra, and 48 in Main Cabin.

According to American Airlines, American's DFW hub will offer customers more than 10,000 connection opportunities worldwide through DFW next summer. The airline will provide more flights and seats to popular destinations nationwide, allowing customers to see new places or connect with friends and family.

To book directly with American Airlines, visit flymgm.com or purchase on aa.com.

About the Montgomery Regional Airport

Montgomery Regional Airport (MGM) is a key gateway to the capital city of Alabama, connecting passengers to daily flights offered by American Airlines and Delta Airlines to Atlanta, Georgia (ATL); Charlotte, North Carolina (CLT); Dallas, Texas (DFW), and Washington, D.C. (DCA) and endless
